**Dear Parents,**

We honour the genuine and heartwarming responses received from you in the form of reviews and feedbacks. This completely describe how you worked as a team with us. We expect the same support in future as well.

**Let us together help our children attain new skills and utilize their Summer time constructively.**

Homework encompasses a whole variety of activities which pupils are asked to do outside lessons, either on their own or with their parents. The school believes that homework based on life skills makes the greatest contribution to learning, as it gives us the opportunity to pursue all those activities that we enjoy but never found enough time to indulge in.

**Yes! A holiday is supposed to be a break from studies, explanations and completing daily tasks. So, we are going to motivate them to take up certain responsibilities in a fun way so that they enjoy their holidays with the family at home.**

Sorting activities always appeal to children. It is to sort, classify and label the group of objects according to its use, colour, shape etc. It refers to organizing things into groups based on similar characteristics. For example:

- Help them organize their closet. They can use pouches or shoe boxes to segregate their socks, napkins and other items and label them for convenience.
- Similarly story books can be sorted on the basis of genre, author or favorites.
- You can device or design various chores of daily routine to inculcate the skill of classification and sorting as it is an important science and mathematical skill.
- Parents are advised not to go out to purchase any material, children can do their work with whatever is available at home. Holiday homework is given not to assess them but it is an effort to keep them engaged in some constructive work, make them responsible and develop few traits.
- Looking forward to see you soon.
- HAPPY HOLIDAYS! STAY HOME! STAY SAFE!

# Dear children,

Holidays are round the corner. They bring delight and laughter on the faces of children. It is a time for recreation, relaxation and rejuvenation.
Holidays are related to fun , frolic, exploring new things and most importantly, playing.
But, this year our vacation would be somewhat different. Due to COVID-19, we shall have to take a few precautions, like staying at home, wearing mask, washing hands frequently, eating healthy and so on.

Being at home doesn't mean we can't be creative and constructive! You can spend quality time with your parents and grandparents. Learn something from them. Show care and concern for your loved ones. Capture the precious moments. Take care of the environment. Go ahead, create wonderful memories!
Keeping all this in mind, even the school has made learning a joyful experience. We have designed special tasks for you to be completed during vacation.
So, Get, Set n Go.....

# English

1. Nowadays, you get to spend a lot of time with your family. Write a poem or a paragraph about '**My Mother' or 'My father'**. Learn it and make a video of yourself reciting the poem or delivering your speech.

2. Dress up like **your favourite cartoon character/ superhero .**

Prepare the dialogues showing some moral/ bravery in English. Make a video of yourself enacting it.

(Pl. don't buy any costume from the market. Use your creativity. Dress up like them using things available at home.

3 **Use of dictionary: Read L-2, Nani's walk to the Park** and make a list of 15 difficult words from it . Then look up a dictionary and write their meanings. ( You won't get meanings of Indian words used in the lesson from the dictionary. Find the meanings of English words only)
